

## Victoria BID

Visitor insights: February 2024

Prepared by: Paul Matthews, Amy Gibson & Tom Rollinson

Victoria, Victoria Westminster and Whitehall BIDs

### Introduction

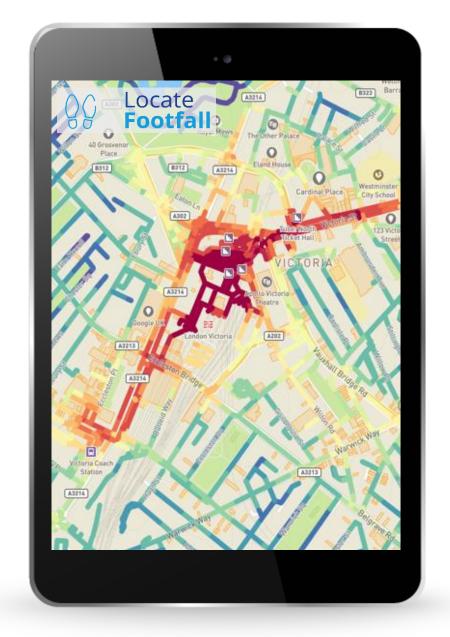

Colliers works with the BIDs to provide ongoing visitor insights to support BID managers and members in driving activity and growth across the area.

This monthly report provides key insights from preceding month including information about:

- Visitor footfall & profile
- Visitor behaviour

Visitor insights data is sourced from Colliers' LocateFootfall platform and profiled using Experian's Mosaic segmentation. The platform is powered by extensive mobility data covering a growing sample of 15+ million smartphone users.

### Colliers LocateFootfall

## Footfall intelligence

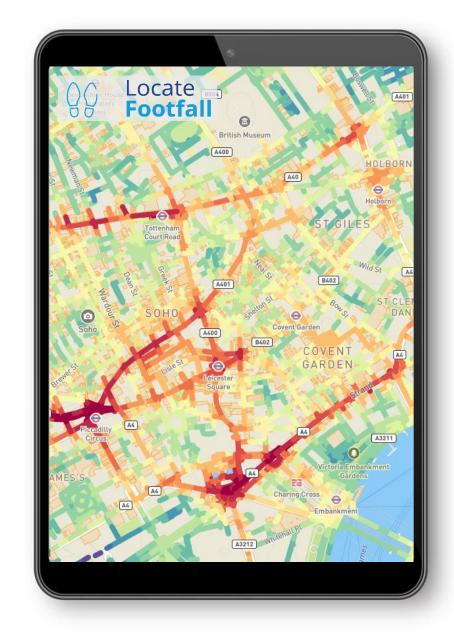

Using mobile data, we are able to profile visitors from a data pool of billions of records

Part of Colliers' proprietary LocateInsights Platform, LocateFootfall delivers unique crowd level profile & behavioural insights for use across the UK retail sector.

The platform is the product of a range of unique partnerships across the Data & Proptech markets, harnessing big data and A.I via a simple browser based tool.

- Market leading intelligence from 80+ data sources
- Sample size of over 15 million active smartphone users
- Oelivers data instantly without hardware installation
- Location data at any level of geography, over any time period

## Colliers LocateFootfall platform Overview

### Locate Footfall

#### **80+ DATA SOURCES**

Data is derived from three core sources; GPS data from mobile apps, Wifi providers and Telecoms providers. Three sources combined deliver national coverage, to the highest levels of granularity.

### **Anonymised**

Personal data eliminated and hashed to keep an anonymised ID only

#### **Aggregated**

IDs grouped to crowd data, no individual is identifiable

### **Extrapolated**

Algorithms applied so the insights represent the entire population

## Colliers LocateFootfall platform GDPR

GDPR insists that no personal data is to be used for marketing purposes, without permission even if it is anonymised...

- In short, all mobile devices used in the data provided from the platform have opted in.
- All personal information is anonymised leaving only an 'anonymised identifier' for each individual. This is not personally identifiable information, and it cannot be linked against other datasets.
- Our data vendors have been operational long before GDPR came in to effect in 2018 long standing security processes and strong legal frameworks.
- All data available in our platform is extrapolated to represent the national population Under no circumstances is an individual ever identifiable in our data.
