RAF Free Showcase for STEM Careers

12th February 2025

As leaders in apprenticeships, the Royal Air Force and Cadets are excited to host a day of discovery and discussion.

The exhibition will feature interactive stands showcasing RAF professions and training opportunities with representatives from industries like air, space, cyber, finance and commerce.

Our goal is to offer insights into career paths for students, teachers and parents/guardians.

Discussion sessions will focus on apprenticeship design and impact, featuring speakers from Northampton University's research team and hopefully those involved in government policy on vocational education and apprenticeships.

Refreshments available in the Church crypt throughout the day. Learn about the plans for developing the church into a vibrant community hub.

10:30am-6:30pm

St Clement Danes Church,
Central Church of the
Royal Air Force, Strand,
